TOGETHER INFORMATION

CONNECT. INTEGRATE. SIMPLIFY.

Technology for every office, delivering advanced functionality, ease of use and peace of mind.
Every industry has unique workflow needs. Toshiba has developed customisable MFPs to improve your work processes. Intuitive and smartly integrated, our products simplify complex tasks through customisable quick access icons and give you control while providing the reliability Toshiba is known for.

Toshiba's latest series delivers on our promise of Together Information – our commitment to collaborate with clients in order to provide tailored, cost-effective solutions to meet specific print, document management and content needs while helping you to meet your green objectives.

Sleeker, faster, and more versatile than ever.
Toshiba's high-end A3 colour line-up is as impressive on the outside as it is on the inside. Its ultra-modern look houses the latest innovative technology, delivering brilliant quality documents at speeds of up to 75 pages per minute (ppm) in colour and 85 ppm in monochrome.

> Advanced Toshiba e-BRIDGE controller technology for high-quality document output with a resolution of up to 1,200 dpi x 1,200 dpi for colour and up to 3,600 x 1,200 dpi for monochrome
> Speeds of 55/65/75 ppm in colour and 65/75/85 ppm in monochrome
> High-speed, high-capacity Dual Scan Document Feeder for lightning fast document processing
> RGB substitution allows accurate colours when using office applications
> Auto-calibration ensures consistency of colour across all print jobs

Improve productivity and connectivity while simplifying your workflows.

Simple, smart and stylish.
A new 9" tablet-style touch screen with an embedded web browser is easy to use and customisable to meet your needs. Part of the bold new look being introduced across the new e-STUDIO series.

TOSHIBA INNOVATION AT ITS FINEST.

When it comes to seamless workflow and simplified integration, the e-STUDIO7506AC series represents the finest Toshiba has to offer. The latest e-BRIDGE Next technology enables complete third-party integration and support for internally driven solutions.

AirPrint and Mopria support means mobile users can print to the MFP with ease. The e-BRIDGE Print & Capture app provides additional capabilities including the ability to scan from the MFP back to your mobile device.

Cloud Support

New Scan-to-Cloud and Cloud Print capabilities increase productivity by allowing users to access, store and print documents remotely from the MFP. Whether it's Dropbox, Microsoft OneDrive or Google Drive, the new e-STUDIO7506AC series makes scanning to or printing from the cloud simpler then ever.

The support for Google Cloud Print enables easy printing to the MFP from any location. Print jobs can be sent from outside the network environment without the need to install a printer driver.

Advanced Security

Alongside innovative functionality the e-STUDIO7506AC series offers industry-leading security, which includes:

> The self-encrypting Toshiba Secure HDD, which provides top level security
> Optional security functions to make the systems compliant with IEEE2600.1 and meet the EAL3 Common Criteria requirements
> IPsec to securely encrypt data sent to and from the MFP

Environmental Responsibility

Toshiba is continuously working towards a more sustainable future for everyone, which is why our products reflect our commitment to the future of the planet.

> RoHS compliant; use of recycled plastics and a low-power Super Sleep Mode to save resources
> Being ENERGY STAR Tier 2 compliant means the systems meet the latest, most stringent environmental requirements

INNOVATIVE FEATURES, VERSATILE CONNECTIVITY.

The Toshiba e-STUDIO7506AC series helps workgroups connect, integrate and simplify while improving efficiency, productivity and the professionalism of your printed materials.

Advanced e-BRIDGE Technology enables the MFP to drive Toshiba's internally developed embedded solutions or those from a third party with ease.

High, Robust Speeds 55/65/75 brilliant colour pages per minute and 65/75/85 monochrome pages per minute, respectively.

Print Around eliminates printing bottlenecks by allowing other print jobs to go around one job that's held-up due to requiring a specific paper size, type or, in some cases, colour toner.

Job Reservation will queue up multiple copy or print jobs so users can send jobs at any time.

Toner Change On-The-Fly allows you to replace the toner cartridges while the MFP is printing.

Embedded Optical Character Recognition (OCR) simplifies the creation of searchable PDFs or generates editable document formats such as Microsoft Word.

Scan-to and Print-from USB lets you print straight from your USB drive or scan documents to it.

Bluetooth/Wi-Fi Option to simplify workflow processes at the MFP and enable Wi-Fi Direct printing — ideal for mobile users.

Card Readers can be installed discreetly behind the cover of the systems. Providing fast and convenient access to your print jobs and increased data security.

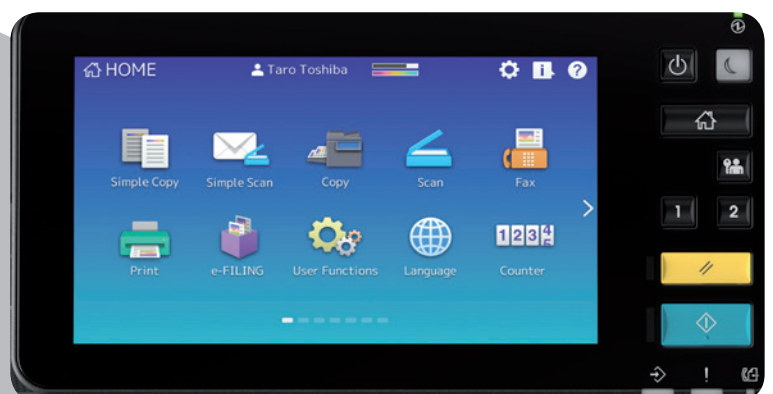

Customised to display up to 18 icons per page and with a different background.
Display icons as buttons to easily access functions or start workflows.

A large tablet-like touch screen improves document handling. It lets you work intuitively, helping you access instructions, functions and commands with ease.

Size and order of icons as well as the background image can be customised to meet the individual needs and preferences of users. Enjoy the unique experience of working with a system that understands what you want.

HIGHLIGHTS

Advanced Media Handling
A vast range of media types and sizes, including banner paper as long as 1,200 mm, combined with advanced colour management and various finishing options allow easy in-house production of impressive, high quality colour documents.

Multi Station Print Enabler
Toshiba's serverless printing solution allows users to send print jobs from their desktop and retrieve them at any available MFP by simply swiping their badge and authenticating at that device. Making last-minute changes to a print job directly at the MFP or re-printing previous jobs incredibly simple.

Dual Scan Document Feeder
The 300-sheet capacity, high-speed document feeder seamlessly scans both sides of each page in a single pass with speeds of up to 240 ipm.
