Industry Solutions Brochure

Digital Transformation in Manufacturing

Practical, affordable solutions – built around your business.

Manufacturing Challenges, Practical Solutions

Digital transformation doesn't have to be complex or costly. At Toshiba, we help manufacturers modernise with confidence - one strategic step at a time. Our technologies simplify everyday operations, strengthen security, and drive measurable gains in efficiency and productivity.

Modernising manufacturing, one step at a time

The pace of change in manufacturing continues to accelerate - from automation and AI to sustainability demands and global competition. But transformation doesn't mean disruption.

Toshiba helps manufacturers across industries - from automotive and electronics to food and pharmaceuticals - take smart, achievable steps that deliver lasting impact.

We help you:

√ **Reduce total cost of ownership**
Lower the long-term costs of your technology investments by improving energy efficiency, reducing maintenance needs and extending the lifecycle of your devices and systems.

√ **Increase efficiency and traceability**
Streamline operations and gain real-time visibility across your production line, helping you track and monitor performance more effectively.

√ **Automate manual workflows**
Reduce repetitive tasks with automation solutions, from document handling to labelling and packaging, reducing errors and streamlining processes.

√ **Strengthen compliance and security**
Protect sensitive data and ensure operational integrity with secure, auditable systems that support manufacturing-specific processes and regulatory requirements.

At a glance:

→ Boost productivity with streamlined workflows and automation.

→ Maximise efficiency by cutting waste and downtime.

→ Strengthen security with reliable, always-on protection.

Our solutions integrate seamlessly with existing systems—supporting every stage of production, from research and design to logistics, assembly, and back-office management.

Start where you are, use what you have, and grow at your own pace.

With Toshiba, you gain more than technology—you gain a trusted partner ready to help your business evolve, sustainably and securely.

Barcode Labelling Solutions, Built for Industry

Toshiba delivers robust, high-performance barcode labelling solutions that help manufacturers work smarter, faster, and with total confidence.

Durable, accurate, always on

Specialist Industrial Printers

Built for demanding production, Toshiba's industrial barcode printers deliver reliable, high-speed performance. Features like rotary cutters and ribbon-save modules reduce waste, cut downtime, and keep operations running smoothly.

Validating Labels

Avoid costly errors with print-and-validate solutions. Ensure every label is accurate, compliant, and ready for application, reducing waste, rework, and delays.

Print and Apply

Save time and reduce errors with automated barcode label application. Easy integration with existing systems streamlines workflows and boosts efficiency.

Linerless

Simple and effective labelling with no waste or mess. Print on adhesive labels with no backing paper to reduce waste and keep the working environment safe and clean.

RFID Solutions

Gain full visibility across your supply chain. Track products in real time, improve stock management, and support seamless omni-channel operations.

The result:

Consistent quality, minimal downtime, and a lower total cost of ownership.
Precision, performance, and reliability — from the first label to the last.

Smarter Print, Seamless Control

Our managed print services put you in control of your print environment – reducing waste, cutting costs, and keeping every device performing securely and efficiently.

Streamline, secure, simplify

Automate complex tasks, capture documents instantly with OCR, and work seamlessly from mobile devices or the cloud. Advanced security and access control keep your data protected while boosting productivity across your organisation.

What you can achieve:

→ Automate document-heavy processes.
→ Capture, digitise, and retrieve data instantly.
→ Integrate with mobile and cloud platforms.
→ Protect information with advanced access control and encryption.

The benefit:

Improved productivity, enhanced data security and reduced manual handling - freeing your workforce to focus on higher-value operations.

MFPs and Printers

Our full range of single-function printers and multifunction products come with an array of optional features and finishing options. Copy, print, scan and fax— our e-STUDIO MFPs are fast and productive, which means you can produce exactly what you need, when you need it.

Print software solutions and print device management solutions

Stay in control of what's being printed on your systems. Easy to install and administrate, our solutions let you take full advantage of your print fleet's potential and optimise the usage of each print system.

Print less, achieve more, and stay secure with Toshiba MFPs.

Automated Workflows, Accelerated Processes

Transform paper-heavy processes into seamless digital workflows with Toshiba's process automation solutions.

Digitise, streamline, accelerate

Our process automation solutions are here to empower you to digitise and streamline document workflows, enhance efficiency and reduce operational costs. Our scalable tools facilitate secure document capture, retrieval, and seamless employee connectivity, enabling your team to focus on what matters most.

While the digital revolution has transformed business, many organisations still struggle with inefficient transitions from paper to digital. Employees can spend up to 40% of their time searching through physical documents or poorly organised digital folders.

Key benefits

✓ Accelerate operations by automating repetitive tasks and approvals, speed up processes and reduce manual errors.

✓ Enhance collaboration as you enable secure remote access to documents, fostering improved teamwork and decision-making across locations.

✓ Ensure compliance with centralised secure archives for audit-ready traceability and support for regulatory compliance and business continuity.

Whether deployed on-premises or in the cloud, Toshiba's process automation solutions integrate smoothly into your existing systems - delivering fast results with minimal disruption.

From paper to performance, one process at a time.

Smarter Infrastructure, Smarter Manufacturing

Smooth IT and communication systems start with secure solutions that you can rely on.

Connected, secure, supported

As digital transformation accelerates, reliable IT infrastructure is essential. Toshiba's IT and communication solutions keep your systems connected, secure, and performing at their best across every environment.

✓ Optimise and manage IT infrastructure with our managed services, ensuring reliable performance and minimising downtime.

✓ Safeguard critical systems and data through advanced cybersecurity solutions that adapt to emerging threats.

✓ Maintain effective voice and data communication across sites and partners with robust telecommunication support.

✓ Facilitate seamless collaboration and information sharing across teams using integrated audio-visual technologies.

Key services:

→ **Managed IT Services:** Comprehensive support to manage and optimise your IT infrastructure, allowing your team to focus on strategic goals.

→ **Cybersecurity Solutions:** Advanced measures to protect your systems and data from evolving threats, ensuring business continuity.

→ **Telecommunication Solutions:** Reliable voice and data services to maintain effective communication within your organisation and with partners.

→ **Audio-Visual Solutions:** Integrated systems to facilitate collaboration and information sharing across teams.

Keep your business running securely, seamlessly, and confidently.

Reliable Performance, Responsible Practice

Consistent quality starts with robust solutions and reliable materials. Toshiba's certified consumables deliver lasting performance while reducing waste and environmental impact.

Limit waste and maximise resources

Our promise:

✓ Print devices designed with sustainability in-mind, using easily recyclable and reusable materials.

✓ Toner recycling scheme available to all customers, free of charge, to limit the environmental impact of print supplies.

✓ Certified ribbons and labels for every application.

✓ Longer-lasting parts that reduce replacement frequency and wear.

We're committed to a more sustainable future. Through our Environmental Future Vision 2050 and partnerships like CleanHub, Toshiba is actively reducing plastic waste and driving circular manufacturing practices.

Sustainable innovation for a cleaner, more efficient tomorrow.

Small Steps, Big Results: The Toshiba Difference

Digital transformation isn't about replacing everything at once; it's about making smart, targeted improvements that create measurable value. Toshiba's consultative, customer-first approach makes that possible.

Our methodology:

• **Customer-centric discovery:** Identify challenges and quick wins together.
• **Modular digitalisation:** Adopt scalable technology at your own pace.
• **Built-in flexibility:** Integrate seamlessly with existing systems.
• **Continuous consultation:** Evolve solutions as your needs change.

This customer-focused, phased and practical approach lowers risk, accelerates value, and helps manufacturers of any size build a foundation for sustainable growth.

**At Toshiba, we don't just deliver technology.
We deliver confidence, clarity, and measurable progress.**

Let's take the first step together. Contact our team to start your digital transformation journey!

About Toshiba Tec UK

Toshiba Tec UK Imaging Systems Ltd is part of the globally operating Toshiba Tec Corporation, active in various high-tech industrial sectors.

Toshiba Tec Corporation is a leading provider of information technology, operating across multiple industries. With headquarters in Japan and over 70 subsidiaries worldwide, Toshiba Tec Corporation helps organisations transform the way they create, record, share, manage, and display information.
