

Cyber Essentials

- > Guard against cyber threats and demonstrate your commitment to cyber security.

What is Cyber Essentials?

Cyber Essentials is a UK government and industry backed cyber security certification scheme. It helps you guard against the most common cyber threats and demonstrates your commitment to cyber security.

Having the Cyber Essentials certification is now a mandatory requirement for working on most central government contracts.

The Difference Between Cyber Essentials and Cyber Essentials Plus

Cyber Essentials incorporates a self-assessment questionnaire, which is checked and verified by an assessor.

Cyber Essentials Plus starts with the same questionnaire, and is then followed by an independent verification of your cyber security, which includes both remote and onsite testing by an assessor.

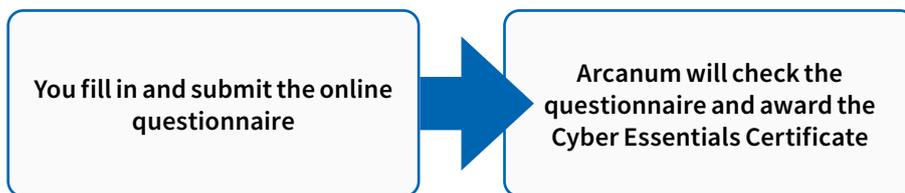

Why get certified?

- Complying with Cyber Essentials certification significantly reduces the risk of your organisation becoming the victim of a cyber attack.
- The certification shows your customers that you care about the security of their information and help you win their trust.
- Cyber Essentials is mandated in most UK government tenders and the supply chain of many FTSE 100 companies.

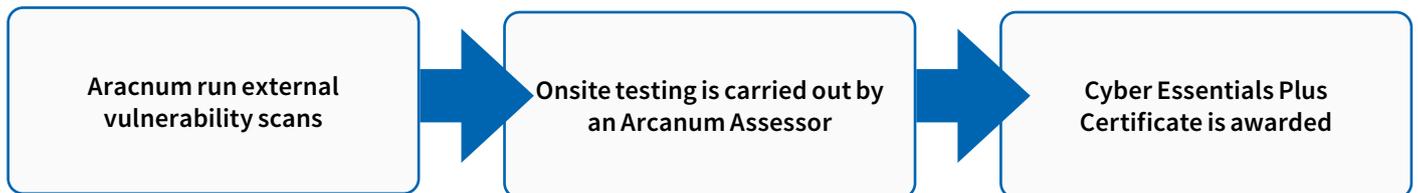

How long does it take?

- You will get access to the web portal to complete the questionnaire immediately after paying.
- It usually takes up to 48 hours to have your answers marked and the Cyber Essentials certificate issued.
- Cyber Essentials Plus usually takes an additional 2 weeks.

How to achieve Cyber Essentials:

Cyber Essentials Plus (additional steps)

Safeguard your business against cyber threats
