

Wristband Range

The summer months are often referred to as “events season”, with additional footfall at many popular attractions and festivals. At these venues, wristbands are increasingly being used as an easy to use flexible solution to managing and organising visitors.

Key features:

- **Safe, strong adhesive fastening.**
- **Range of colours.**
- **Direct thermal - no ribbons or inks.**
- **Fully customisable - text, logos, pictures and barcodes.**
- **Comfortable with adjustable lengths.**
- **Flexible for the widest range of events and applications.**
- **Fully scalable for small intimate events or large festivals.**
- **All-in-one solution - printer, software and wristbands.**

Flexible applications

Toshiba has expanded its wristband portfolio and introduced a range of coloured, thermal printable wristbands for on-demand printing of text, logos, pictures, barcodes or just about anything imaginable. Perfect for food and drink festivals, VIP areas, fun runs, sporting venues, concerts, theme parks, leisure facilities, swimming pools and children’s party venues.

End to end solution

Whatever your size or business requirements, Toshiba can recommend a complete wristband printing solution to help manage and track your customers and visitors:

- Print ad-hoc or in-advance, to avoid queues and speed up customer entry points.
- Track and trace with barcode scanning, see which of your attractions are most popular.
- Customise with your branding and imagery, or create keep sakes for parties and events.
- Print tailored messages, or use to advertise.
